## Investigation 20

### ~~Answers~~ Doubling Time

Doubling time is the amount of time it takes for a given quantity to double in size or value at a constant growth rate. We can find the doubling time for a population undergoing exponential growth by using the Rule of 70. To do this,

# Get Free Investigation 20

we divide 70 by the  
growth rate ( $r$ ).

Note: growth rate  
( $r$ ) must be entered  
as a whole number  
and not a decimal.
