Exenta™ Launches Powerful New Shop Floor Control™...

Shop floor management is developing and managing the shop floor operations, inventory, equipment and workers. The following diagram displays the general phases of a manufacturing/processing/assembly business. A shop floor being the participant of a production phase, its management requires dealing and handling all those factors which are directly involved in production.

Shop Floor Management – Introduction – Tutorialspoint

As per Mr. Kiyoshi Suzuki (author of The New Shop Floor Management), shop floor management is practicing the three reals: Genba (Real Place): It refers to the location where the value is created. It can be either the factory floor or a business process. Genbutsu (Real Thing): The realistic information of all the problems rather than the
